LubesNet helps assess finished lubricant demand at the global, regional, country market, market segment, product type, and viscosity grade level. **LubesNet** is the definitive source of identifying and quantifying industry trends and opportunities for global, regional, and independent lubricant and additive suppliers.

This Database Provides Answers to Questions such as:

- What is the ratio of monograde PCMO to multi-grade PCMO in Nigeria?
- Who are the leading suppliers of commercial automotive lubricants in Myanmar?
- How many kilotonnes of synthetic turbine and circulating oil will be consumed in Turkey in 2026?
- Which country consumes more 2T/4T engine oil in 2017—Brazil, China, India, Nigeria, or Thailand?

Now featuring 59 country markets and market share estimates for nearly 200 finished lubricants suppliers

Database Contents

LubesNet captures finished lubricant consumption in every important lubricant-consuming country market. Demand estimates are segmented according to five core regions, plus a global summary. Each regional segment provides a detailed breakdown of finished lubricant consumption in each country market, plus an “all other” category.
