

Industrial Vegetation Management Market for Pesticides: U.S. Market Analysis and Opportunities

Base Year: 2022

**To be published:
Q3 2023**

24th edition

The study is a comprehensive analysis examining the industrial vegetation management market in the United States, providing details on the important market segments. The report will focus on key trends, developments, changes, challenges, and business opportunities.

Regional Coverage: • United States

SCOPE

- › Size and segmentation for herbicides by brand and weed type
- › Invasive weeds and herbicide treatments
- › Acre treatments by market segment and brand
- › Active ingredient usage by market segment
- › Supplier summary totals by brand
- › Separate totals for pre- and post-emergence herbicides by market segment

TABLE OF CONTENTS

Introduction

Executive Summary

An overview of the report findings .

End-Use Market Reports

- Invasive weed control
- Forestry
- Rangeland and pastureland
- Railroads
- Roadways
- Electric utilities and pipelines
- Aquatic areas

Product Summaries

- Herbicides
- Insecticides
- Plant growth regulators
- Suppliers

End-Use Analysis

Each market segment contains the following information:

- Introduction
- Structure of the industry
- Separate breakdown for invasive weeds for each market segment using both end-user IVM data and weed control district data (U.S. only)
- Overall market
- Incidence of weeds and brush
- Control methods
- Herbicides
- Pre-emergence herbicides
- Post-emergence herbicides
- Critical issues
- New product needs

INCLUDES INTERACTIVE DATABASE

REPORT BENEFITS

This report serves as an excellent resource for manufacturers and formulators of industrial vegetation management pesticides and fertilizers. Specifically, this report assists subscribers by providing:

A highly reliable and independent assessment of the brand share sales for IVM pesticides by market segment

Key product usage patterns for each specific market segment and active ingredient volumes, including generics

Customer satisfaction
– Product likes and dislikes
– New product needs

METHODOLOGY

Kline's approach places principal emphasis on primary research techniques to ensure that the foundation of business intelligence and insight is accurate, current, and reliable. Building on our 60-plus years in the business and leveraging our worldwide network of offices, our teams of seasoned professionals draw upon pragmatic industrial and commercial experience to understand and interpret global impacts and local perspectives. Our industry expertise is elevated by technology and systematic data collection processes to deliver more predictive and actionable data and insights.
